“RIDE FOR SANTA”

Dear Business Owners,

Little Miracles is a Christian preschool located in Middlesex, NJ. We have been in business for 21 years and serve many families in the area. Our students range from 18 months to 6 years old. We are honored and privileged to be a part of the lives of precious children. We prepare children for Kindergarten, but our #1 goal is to instill compassion and love in their little hearts.

This year we are hosting a very special event on 12/16/2017. It is called “Ride for Santa.” The children will ride their bicycles around the Middlesex High School gymnasium in order to raise money and Christmas presents for underprivileged children. Each child will bring a present and give it to Santa for a special child. This event is designed to bless the recipients and teach the children that it is better to give than to receive. It is our sincere hope and prayer that smiles will be on the faces of precious children this year and that our school family and community will be a blessing to others this Christmas. After all, that is what Christmas is all about. All monetary donations and presents will be donated to children through The **Somerset County Foodbank Network**.

We are asking for your help to make this event a success. We cannot do this without the support of our community. We need business sponsors beginning at \$100. Would you consider being part of this event and blessing others this Christmas through the “Ride for Santa” event? For \$100, you will provide gifts for 5 children. For some, the gift that will be provided through your donation will be the only one that they receive this year. Some will receive toys, and other clothes that they desperately need.

This event was greatly inspired by Kelsey Charity Run, Inc. a 501 c3 organization. We are thankful for the faithfulness and generosity of this amazing organization and excited to work side by side with them.

If you have questions, please go to www.rideforsanta.com or contact me at (732)356-1127.

God Bless You,

Tina Pagano

Director
